President  
**Shigeki Ohara**

Every customer of ours has its own targets and problems. It might not be so difficult to generalize and deal with them, but that will not impress anyone. It is our motto that, in order to solve each customer's problems and help them achieve their goals, we fully utilize our company network, technology, and insight, moving quickly and doing anything valuable for them. Though ordinary to say, we strive to improve every day for everyone involved to be happy and for us to be an indispensable company for our customers.

**Products and Services**

We provide wooden and plastic pallets and various other goods for material handling. Wooden pallets are fully made to order, from standard to a wide range of special specifications. We have a very wide range of plastic pallets: for "one-way" use, for manual storage, for automated warehouses, and for many other applications. Also, we have various material-handling goods for streamlining transportation and saving labor: plastic containers, storage racks, cleaning machines, dollies, mesh boxes, and such seasonal things as cooling fans. Please ask for our suggestions and recommendations for your specifications.

**Equipment and facilities**

**First machine**  
A Fully automatic nailing machine which can accept wood from 1000 to 1500 mm

**Third machine**  
Made by Viking (USA): an automatic two-sided nailing machine.

**Forth machine**  
A semi-automatic nailing machine for producing four- and two-sided pallets.

**About the company**

Since the establishment of the company in 1968, we strived to improve every day, for everyone involved to be happy and for us to be an indispensable company for our customers. Many of our workers are in their thirties or forties so it is easy to communicate with anyone and the workplace is very lively.

Messages from our workers:

For some of you, it might not be so easy to jump into a completely new environment, our company workers are all very friendly like real family members, getting excited by an offhand everyday topic and going to lunch together. A warm circle of people is waiting for you. Fuji Pallet is a cheerful, lively and fun company to work in.

**Factory tour, internship, etc.**

We accept factory tours at any time: please contact Mr. Katayama in the recruitment section to arrange a date and time. We will explain each machine's functions and production processes in detail. Company visits can also be arranged.

**Recruitment history**

Katsumada High School.

**Ideal applicants**

A person who is cheerful, active, positive and, at the same time, humble. The main part of the production is done in the factory, so a healthy and strong person would be suitable. Being cheerful and active is very advantageous in communicating with people at work. We also consider if you can: humbly absorb what has been said to you, keep going forward even when you have failed in something, and have a positive attitude towards learning many new things.

**Message to applicants**

There are many jobs around but if you are interested in our company even a little, please visit us. Also, please visit many other companies to find the workplace where you want to be. Then, if you choose and join us, let us work together towards our big motto "Create a better future for everyone who is involved in our business."
